Experience

WordPress Developer at IT Extension

January 2022 - October 2022

Started with Elementor to create engaging and interactive websites. Progressed to custom coding for unique client requirements, enhancing site functionality and performance.

Web Developer at BigResource

November 2022 - May 2023

Focused on developing e-commerce platforms using WooCommerce and custom scripts. Improved front-end interactivity with JavaScript and CSS, ensuring responsive designs.

Senior WordPress Developer at LazyMetrics

June 2023 - Nov 2024

Led projects involving complex WordPress customizations and plugin development. Provided comprehensive support and training to clients for site management.
